After-hours access requirements

To ensure 24-hour coverage, PCPs must maintain one of these arrangements:

- Use an answering service that can contact the PCP or another designated Simply or CHA medical practitioner to answer the office telephone. All calls answered by an answering service must be returned within 30 minutes.
- After-hours appointment availability: The health plan must provide the state with the percentage of PCPs who offer after-hours access. Please assist us in updating our records.
- Use a recording in the language of each of the major population groups served by the PCP to answer the office telephone after normal business hours. The recording must direct members to call another number to reach the PCP or another provider designated by the PCP. Someone must be available to answer the designated provider's telephone; another recording is not acceptable.
